TEN THINGS BUILT INTO A LONGEVITY HOME.

KAAVISH RAMCHANDANI

01 AIR

Filtered fresh air in every room, with PM2.5 and CO2 on a screen.

02 WATER

Whole-home micro-filtration. Drinking grade at every kitchen tap.

Daylight first. Circadian lighting after dark. Full blackout for sleep.

04 SOUND

Acoustic glazing against the flight path and the traffic. Quiet bedroom zoning.

Low-emission paints, glues and finishes, built to resist monsoon damp.

06 AMENITIES

A recovery suite, a movement studio, a partner clinic and a sky garden.

07 CARE

Annual diagnostics, longevity protocols and a health dashboard for each family.

Step-free floors, wide doors and grab-ready walls, for three generations.

09 UPKEEP

Sensors and filters monitored and serviced on schedule, from day one.

10 PRICE

10 to 20% above the market. Nearly 70% of Mumbai's HNI buyers say they'll pay it.

Outlook Money, June 2026.
