# BUILD THE FIRST ONE WITH US.

KAAVISH RAMCHANDANI

WE BRING

# The concept and the longevity standard. The brand and the product, from plan to finishes. The launch and the sales engine.

WE ALSO BRING

# Forty years of building luxury homes, through R1 Africa. Verona in Westlands, Nairobi. Rivera in Nanyuki. A wellness resort coming up at Vipingo.

# Fund the first project. About INR 46 crore before bookings start, as a joint development, a licence per project or a revenue share, set site by site.

# Bring the site. An older society of 1,500 to 2,500 sq m between Juhu and Bandra West, on a 12 to 18 m road, within about a kilometre of the sea.

CLINIC AND DESIGN PARTNERS

# Run it and design it. Care, diagnostics and protocols from a clinic partner. The building and its homes from design partners.

ABOUT 4 YEARS 9 MONTHS

# Society agreement, months 0 to 6. Design and approvals, 6 to 15. Construction, 15 to 51. Handover, 51 to 57.

THREE RISKS, HANDLED

# Consent takes time, so talks start with several societies at once. The premium is new, so the plan carries a 5% contingency. A clinic must earn its keep, so a partner runs it on a membership.

**The first longevity address on the western side will set the price for every one after it.**
